## The Way Corps

### Lessons in Living

"As the guardians of the mystery, we need to be on top spiritually, which means we've got to be in charge of our physical lives. Rather than gobble down that plate of carbohydrates, look at yourself and see how much LIFE you've been feeding your body. To live, we need a life giving source daily. Today is grace, true, but we are stewards of our own bodies also. Grace is for us to abound in Christ Jesus. Our responsibility as stewards is to be in the best health possible, so we can teach others. Remember what the Word says, not to do anything in excess. You can't feed yourself too much life. So then, as caretakers we must feed ourselves that which will help promote LIFE."

Jim Wahl

"If you're an average person you're as far from the top as you are from the bottom."

Grace Bliss

\*\*\*\*\*

"When you are green inside, you are clean inside."

Jim Wahl

\*\*\*\*\*

"You are what you eat!"

Grace Bliss

"We can never understand grace apart from understanding the joy and freedom of obedience."

"Keep your seas quiet, but not stagnant."

Craig Martindale

## SHARING FROM THE CORPS GRADS

"Being close to home, (International Headquarters), is a matter of the heart, not miles. Upon returning home for this visit, I feel like I have never left except that I love this place even more."

Ken Brown

"Being at Headquarters and with the Corps is like a refreshing dip in cool water on a hot summer day. It awakens you like a soft hand touching your face from a deep and slumbering sleep. It invigorates you like a fast run down Wierwille Road on a chilly winter day. It heals you with a firm tenderness that shows the love of God. It reminds you that people have not forgotten you and that they really do love and care for you. It charges that spiritually battery to help generate the love, determination, boldness, confidence and believing that is needed to move the Word. It is very good to be home again!"

With thanks and love,  
George Hendley

"Time is a priceless commodity and each of us only has so much of it. The key to living life in all of its abundance, is to put 100% of your ability into the moment at hand. Don't cheat yourself by coasting, but instead get involved with the intensity of the moment. You only live once, so give 100% and reap what is available from God to you TODAY . Want to be free? DO IT! Liberty is a trust to carry out."

Gerald Wrenn

"The thing that impressed me the most about the Corps Grad Advance was the love manifested. That simple love which we've seen manifested ever since the first session of the Power For Abundant Living Class. The gentle, tender love we've received from Dr. Wierwille continues to inspire in us the desire to manifest more of that "masterpiece (poem), created in Christ Jesus unto good works." Our hearts are truly knit together in love to the end that we can hold forth the Word."

In Christ,  
Dave Turk

## SALES PRINCIPLES

Explains Bible Contradictions: Exhibit  
which means

You will know that the things God promises you won't change from one day to the next, but are consistent evidence. Look at this list of scriptures. I made this list, before the class, of contradictions I had found in the Bible and you will notice that everyone has been checked off. When I'd get the answer to my questions about the verse or passage, I would check it.

Nail Down- You would like to know that God's promises don't change, but are consistent, wouldn't you?

Bev Dudley

Develops more harmony in the home: Analogy  
which means

You won't have to fight or scream to get attention in your home. I bounced down to the band room and whipped out my flute to join in the confusion. Everybody was playing as loudly as he could. Then, something strange happened. The clarinet section started playing part of a song in just a normal volume and soon one by one, each section joined in and played a beautiful song together, each giving and taking where the music called for it. Something similar to this happened in my home after I had the class. I did fewer obnoxious things when touchy situations came up and would carry out my part calmly and lovingly. The tone among the rest of the family members settled down and now we have real mellow times when we are together.

Nail Down- You do want to have a more peaceful home, one that is free of screaming and fighting, don't you?

Gloria Lora

"People are like pins. They lose their heads and they are no good."  
Grace Bliss

"Work never hurt anyone. More people rust out than wear out, but not me. I'll be damned if I'll ever rust out."

Colonel Harland Sanders

PRAISE GOD for the Way Corps.

For one man of God to live one day the world is forever richer. For one man of God to live many days only eternity can reveal its riches. He was one of God's and one of us, the Way Corps.

This is the first time in the history of The Way ministry that the Adversary has robbed us in death of a member of the Way Corps. The best type of mourning is for all of us to be strengthened with might by His spirit in the inner man and to boldly declare the inherent and inerrant accuracy of God's Word that it continues to be manifested among us as God's will.

We fly the flag of the United States of America at half-mast because our country has this day lost a great son and servant.

In respect to the memory of Garry Wayne Donhoff and the love in our hearts to the living members of the family.

Dr. Victor Paul Wierwille

"Have not I commanded thee? Be strong and of a good courage; be not afraid, neither be thou dismayed: for the Lord thy God is with thee whithersoever thou goest."

Joshua 1:9
