"...Rooted and grounded in love." Ephesians 3:17

"The Way Corps is set up to train people to live God's Word completely unsupervised so that we can discipline ourselves to receiving by believing, that which we need from God." --Dr. Wierwille

Heartbeat is a manifestation of the living epistles we all are - a love letter for the Body, from the Body, with a view towards the edifying of itself in love.

He was sitting in the motorcoach, sipping a cup of coffee and sharing his heart with us. Outside there were 60,000 people, literally on the edge of their seats with excitement and anticipation, waiting for the game to begin. Once again, I thought about how backwards the world really is. Here sat the greatest man of God since the first century and no one had come to see him. Yet 60,000 had come to see a few men run and crash into each other. As members of the Way Corps, we have the privilege of living with and learning from this man of God. Like those 60,000, we should be sitting on the edge of our seats with that excitement and anticipation every second of the day! --Carol Vandergrift

"There is nothing any bigger or greater than Ephesians and we're the only ones who know it and believe it. We have to drive ourselves to the point where we don't even have a doubt about its true greatness." --Dr. Wierwille

Oil in an engine serves the purpose of a lubricant. It coats each part so that when the parts rub against each other, they do not cause friction. Much like this engine, is the body of Christ. Each member in the body serves a purpose and contributes to that body. The members, like each part of the engine, interact one with another to operate together as one, accomplishing the same goal. The love of God is the oil in the machinery of the body of Christ. Ephesians 4:16
--Debby Jean Folk

LOVING - "...intensely desiring the best for each other."--Elena Whiteside

The more you become a "doulos" to your brothers and sisters in the Corps, the more free you will become. --taken from a letter written by Dave Standage

Babysitting during the 5:00 p.m. service while Craig teaches from Ephesians is definitely Renewed Mind! But you know something, "what is happening" is not just in the BRC on Sunday nights, or on tour with the Doctor, or on the field as a Corps grad; "what is happening" is where you are at. You make it happen - Why? Because God in Christ is in you no matter where you are! I John 1:3 Pam Tompary

Practice makes Permanent - "As you practice the presence of God, God becomes a permanent reality in your life." Franklin Smith

God is the Way Corps' further shore,
Christ is the Corps' bill'wing wind.
We are the Corps, the tiers of oars
The galleon of Truth, love driven.
--Anthony Patch

"Each day in the Corps is more exciting and I can hardly wait until tomorrow."--Ken Strother

T O A L L P A R E N T S: Burt is doing much better! --Mike

This past weekend with Dr. Wierwille, I started to see the balance of God first, others second and ourselves third. Doctor really lives that love for God's people and it just radiates from him continuously. I'm blessed and thankful to have been there with him. Pam Coleman

"It's not important what I want to do in life, but what my Father would have me to do!" --Dr. Wierwille

Finally, brethren, whatsoever things (are) true, whatsoever things (are) honest, whatsoever things pure, whatsoever things lovely, whatsoever things of good report; if any virtue, and if any praise, think on these things. Phillipians 4:8

....This is your heart and your Body...All ideas, opinions and contributions are welcome....As you give, you shall receive!

WE LOVE YOU!!
