

God

THE
WAY

November Grapevine

Dear Beloved of God:

God bless you and greetings in the powerful and victorious name of our living lord and savior, Jesus Christ.

"How do I live victoriously as a son of God?" Have you ever heard this question, or have you ever had this question yourself? I did, and many times I am still asked this same question. The answer is very simple. GIVE WHAT GOD HAS GIVEN YOU!

Matthew 10:8b

...freely ye have received, freely give.

God is a fountain of living waters, a never-ending supply of life, health, strength, love and power. That fountain dwells in you by way of Christ in you, the hope of glory. You allow the fountain of living waters to nourish, supply and spring forth in your life in direct proportion to how much you give. As you give, that never-ending supply flows through your life touching all areas of your life, physically, mentally, spiritually, financially and socially. The key to receiving into manifestation this great wealth is to give it.

We have so much to give. We can give the love of God we have in our hearts, our prayers, our believing, our time, our physical and financial resources, our special skills, our wisdom, our enthusiasm, our joy, our peace, and most of all, the written and spoken Word. As we give from these areas of our lives, they are replenished by God to a greater amount than what we started with. Abundance is ours as we give.

What about making a special effort of giving this month to bring someone back to God by helping them through the foundational class on Power for Abundant Living?

During this month of November, we celebrate a day called Thanksgiving. Let this be a special reminder that the how of a victorious Christian life is to give what God has freely given us. Let's continue to be mindful of "Your Call to Service" this year. We have been called by God to serve. What do we serve? We serve our lives, filled with God's Word to others in need.

By giving, you fulfill the joy of living.

Serving with you,
